Preface

This report contains all the outputs of a project undertaken to develop a working model of _____and to study the existing working system. As part of this study, we analyzed the requirements of the working model and tried to improve it using the technological functionality that the current computer science provides.

This volume contains the documentation summary of the working system, the background study and analysis, the technical requirements and the working specification of the developed system.

We recommend the user to take the advantage of the study presented here and implement the system with their required improvisation. We hope this study will reduce the burden of the reanalysis of the development phase.

Acknowledgment

"It is not possible to prepare a project report without the assistance & encouragement of other people. This one is certainly no exception."

On the very outset of this report, We would like to extend our sincere & heartfelt obligation towards all the personages who have helped us in this endeavor. Without their active guidance, help, cooperation & encouragement, We would not have made headway in the project. We are ineffably indebted to our HOD / Prof. _____ for conscientious guidance and encouragement to accomplish this assignment.

We are extremely thankful and pay our gratitude to our project guide Prof _____his/her valuable guidance and support on completion of this project in its presently.

We extend our gratitude to Department Of Computer Science, Dr Subhash Technical Campus for giving us this opportunity.

Thanking You
